

GREGG THERRIEN

Vice President

Gregg Therrien is a testifying expert on North American utility ratemaking and regulatory matters with over two decades of experience in the energy industry.

He provides regulatory strategy and financial rate case expertise to regulated and unregulated entities in the natural gas, electric, and water industries with a focus on cost allocation and rate design.

As an expert witness, Mr. Therrien has testified on critical utility matters before State, Provincial and Federal regulators. His consulting work spans a broad range of services, from auditing billing systems to evaluating infrastructure expansion for gas LDCs. In addition to traditional ratemaking, he has developed alternative rate plans for utilities with diverse regulatory goals and formulated innovative rate designs for utilities.

Mr. Therrien is a thought leader on utility regulation, having conducted speaking engagements and moderated panels on the topics of cost allocation, rate design, renewable natural gas, and the future of natural gas. He holds an M.B.A. from the University of Connecticut, a B.S. in Finance from Bryant University, and is certified Project Management Professional (PMP).
