

J. STEPHEN GASKE, Ph.D.

Senior Vice President

Expert in Utility Regulation, Market Analysis & Resource Planning

Dr. Gaske is a Senior Vice President with more than 40 years of experience as an economic consultant, researcher, and professor in the fields of public utility economics, finance, and regulation. His areas of expertise include finance, cost of capital and risk analysis, rate design, cost allocation, cost of service and pricing of services, energy markets, economics of public utilities and energy infrastructure, competition and antitrust principles, and regulatory and energy economics, rules, and policies.

Dr. Gaske has provided consulting services in more than 300 regulatory, antitrust, tax and civil proceedings. In addition, he has presented expert testimony in over 100 state, provincial, and federal regulatory commission hearings in Canada, the U.S., and Mexico. He has served as an advisor to numerous regulated companies and has authored many studies on behalf of utilities, associations, and government agencies. His work has included projects involving natural gas pipeline and distribution companies, electric utilities, oil pipelines, railroads, postal service, telephone and satellite telecommunications companies, and water and sewer companies.

Dr. Gaske has been a lecturer at electric rate courses sponsored by the Edison Electric Institute and natural gas rate courses sponsored by the American Gas Association. He is a former Associate Professor of Finance and has taught college courses in Public Utility Economics, Transportation, and Accounting.
