RYAN KENNEDY

Senior Consultant

T: 587.997.6094 | **E:** rkennedy@ceadvisors.com

Ryan Kennedy is a Certified Depreciation Professional and valued member of Concentric's depreciation practice, bringing over five years of experience in completing comprehensive depreciation studies for clients across Canada and the United States.

His areas of expertise include compiling complex financial data, converting it into various models and software, and running statistical and scenario analyses. He is proficient in calculating depreciation expenses, service life estimation, estimating gross salvage, cost of removal and Iowa Curves, financial rates analysis, and supporting post-filing services and regulatory compliance. The insights that Mr. Kennedy provides help clients make informed decisions about capital investments, long-term planning, and reliability. Clients trust Mr. Kennedy to help them navigate the complex world of utility ratemaking.

Mr. Kennedy has successfully assisted numerous clients with multiple aspects of their regulatory proceedings to ensure compliance throughout the natural gas, oil pipeline, electric, railway, and water industries. His expertise in supporting post-filing services helps reduce risk and strengthens the regulatory relationships with the clients that he serves. The work that Mr. Kennedy performs matters in a changing industry environment, as it enables accurate and transparent reporting that promotes sustainable and responsible growth for the utilities that power our communities.
