

COLIN BURNS

Senior Project Manager

Colin Burns is a Senior Project Manager at Concentric Advisors ULC, specializing in depreciation studies.

With over 20 years of experience, Mr. Burns has conducted comprehensive depreciation analyses for clients across Canada and the United States, across a variety of sectors.

His extensive skill set includes expertise in depreciation and regulatory accounting, data processing, statistical analysis, testimony preparation, business and actuarial analysis, regulatory compliance, and gas demand forecasting.

Notably, Mr. Burns has assisted numerous clients in navigating complex financial data to ensure regulatory compliance within the natural gas, electric utility, pipeline, transmission, distribution, generation, and railway industries throughout North America. Prior to joining Concentric, he was a business and financial analyst at a major North American pipeline company based in Western Canada, where he focused on gas demand forecasting and Canadian pipeline marketing & commercial services.

Mr. Burns studied Civil Engineering Technology-Computer Network Administration at the Southern Alberta Institute of Technology. He is a member of the Society of Depreciation Professionals and the Society of Utility Regulatory Financial Analysts.
