

# MARK C. CATTRELL

## Vice President

**Mark Cattrell advises clients on emerging trends in the energy industry, focusing on utility business model innovation, regulatory model reforms, new operating models, and technology investment strategies.**

Mr. Cattrell has successfully led projects that address strategies for utility modernization, market design and integration, regulatory framework evolution, and performance measurement. In addition, Mr. Cattrell has overseen client-led initiatives on a diverse range of energy-related matters.

Prior to joining Concentric, Mr. Cattrell worked with various government agencies to implement information security best practices as a consultant with Janus Associates. Notably, he contributed on numerous technology projects in Harvard University's School of Engineering and Applied Sciences.

He holds a B.A. in Computer Science from Colby College and a Master of Public Policy degree from Georgetown University. Mr. Cattrell is a member of The Energy Bar Association, the National Association of Business Economics, and the International Association of Energy Economics.
