

# SARAH CRIMMINS

## Project Manager

**Sarah Crimmins is a highly skilled consultant with over ten years of experience in the energy industry and expertise in demand forecasting and marginal cost of service studies.**

Her professional career commenced at Concentric, where she progressed from an Analyst to her current position as a Project Manager.

Ms. Crimmins has assisted various utilities in the Northeast in developing sales and demand forecasts for regulatory filings. Specifically, her forecasting engagements have involved developing forecast and supply plans for utilities in Massachusetts and sales forecasts for a utility in New England. She has also conducted and supported marginal cost of service studies for various utilities in the Northeast. All of this work involves building databases, reviewing data, developing regression models and forecasts using SPSS, preparing written reports, and responding to data requests. Ms. Crimmins has provided support for various other rate and regulatory matters, including developing revenue requirements, cost and performance benchmarking analyses, and long term gas planning.

Ms. Crimmins graduated magna cum laude from College of the Holy Cross with a degree in Mathematics and is a member of both Phi Beta Kappa and Pi Mu Epsilon, a nationally recognized mathematics honor society.
