

BICKEY RIMAL

Vice President

Bickey Rimal is a testifying expert specializing in cost of service and rate design, with extensive expertise in both traditional and advanced rate structures, including dynamic time-based rates, electric vehicle rates, and standby rates.

With over 15 years of progressive experience in the energy and environmental sector, he has provided consulting services across the electric, natural gas, water, and wastewater industries. Mr. Rimal has been involved in projects dealing with all aspects of the regulatory ratemaking process.

He has extensively used Concentric's Excel-based, macro-driven Allocated Class Cost-of-Service (ACCOS) model for various clients, and has modified and updated the model as needed to suit the specific needs of his clients. His work frequently involves financial modeling, statistical and econometric analysis, and regulatory strategy. Mr. Rimal is proficient in tools such as SPSS and R and skilled in programming with Visual Basic for Applications (VBA). He has extensively utilized AMI data to evaluate and design advanced rates for utilities.

Mr. Rimal joined Concentric after earning his Master's in International Public Affairs, focusing on Energy Policy, from the University of Wisconsin at Madison.
