

MEREDITH STONE

Assistant Vice President

Meredith Stone has nearly a decade of energy industry experience focused in wholesale market and resource planning analysis.

Ms. Stone is a testifying expert in matters related to asset valuation, power purchase agreements, and regulatory policy. She has provided analysis on the net Cost of New Entry in the ISO New England wholesale capacity markets, as well as analysis in support of numerous CPCN filings.

Additionally, she is well-versed in various elements of the regulatory ratemaking process, including fuel adjustment clause policy and precedent, incentive regulation, cash working capital/lead-lag studies, and competitive transmission.

Ms. Stone earned her Master of Public Policy from Brown University and a B.A. in Political Science from Middlebury College.
